Study Objectives

- 1. Determine an attendance boundary, program offering, and opening grade structure for the new Stittsville secondary school.
- 2. The creation of a set of attendance boundaries and programs for local schools which:
 - i) help to balance enrolments at local area schools;
 - ii) are logical and sustainable in the longer-term;
 - iii) align program feeding patterns;
 - iv) provide for viable student programming; and
 - v) account for future planning considerations such as the opening of additional schools in future years.
- 3. The examination of designated school directions for new and future residential development areas. Are there any boundary adjustments that should be considered to create more geographically logical attendance boundaries and/or better balance future enrolments between area schools?

Considerations

Capital Funding Strategy and Attendance Boundary Size

- Should we set a smaller and more sustainable long-term attendance boundary for the new school which would result in only parts of the Stittsville area being directed to the new school; or
- Should we set a larger attendance boundary which would result in accommodation pressures earlier these site pressures, however, would support a business case submission to the Ministry of Education in order to help secure capital funding to build a future addition at the New Stittsville SS, or the construction of a second area high school (Kanata West SS).

A Family of Schools

• Attendance boundary changes proposed in Option A and B would move towards creating a family of schools for the Stittsville area.

At this time however, we are not able to fully align all area school attendance boundaries to make a Family of Schools. EFI students residing south of Fallowfield Road are currently directed to Stittsville area schools (A. Lorne Cassidy ES or Westwind PS) while ENG and MFI students are directed to Richmond PS. A future elementary school site has been reserved within the developing residential lands in the Village of Richmond. A new elementary school would provide the OCDSB with the opportunity to add a local EFI program in the Village of Richmond and revise existing EFI attendance boundaries and grade structures, potentially resulting in a more complete Family of Schools set-up for students in this part of the District.

Two Potential Kindergarten to Grade 6 Attendance Boundary Revisions

- 1. A kindergarten to grade 6 attendance boundary revision between Stittsville PS and Castlefrank ES /Katimavik ES Carp River, Terry Fox Drive area.

 Would redirect students residing in approximately 1,825 future residential units located within the current Castlefrank ES/Katimavik ES/Earl of March SS attendance areas, to Stittsville PS/New Stittsville SS. This revision was discussed previously.
- 2. A kindergarten to grade 6 attendance boundary revision between A. Lorne Cassidy ES and Stittsville PS. Would redirect a portion of the students residing in existing and future residential units north of Hazeldean Road from Stittsville PS to A. Lorne Cassidy ES. There are over 3,000 future residential units expected within the current attendance boundary for Stittsville PS. This change could be phased in and a sibling provision considered.

Factors to Consider:

If the grade 7 and 8 program at A. Lorne Cassidy ES were to be relocated to the New Stittsville Secondary School, it would result in additional available instructional space at A. Lorne Cassidy ES. In order to make best use of this surplus space, a kindergarten to grade 6 attendance boundary revision to increase enrolment at the school, and better balance new and future residential development areas could be considered.

Stittsville (including Fernbank) is the fastest growing development area in the City of Ottawa. Over the past three years the city has approved building permits for approximately 1,500 new residential units per year in this part of the District.

There are no large new residential development areas within the current A. Lorne Cassidy ES attendance boundary. Most of the new residential development located north of Hazeldean Road is directed to Stittsville PS.

Approximately a third of the Fernbank Community Design Plan (CDP) lands are located within the attendance boundary for Westwind PS. The remainder are to be directed to the new Fernbank ES upon its opening.

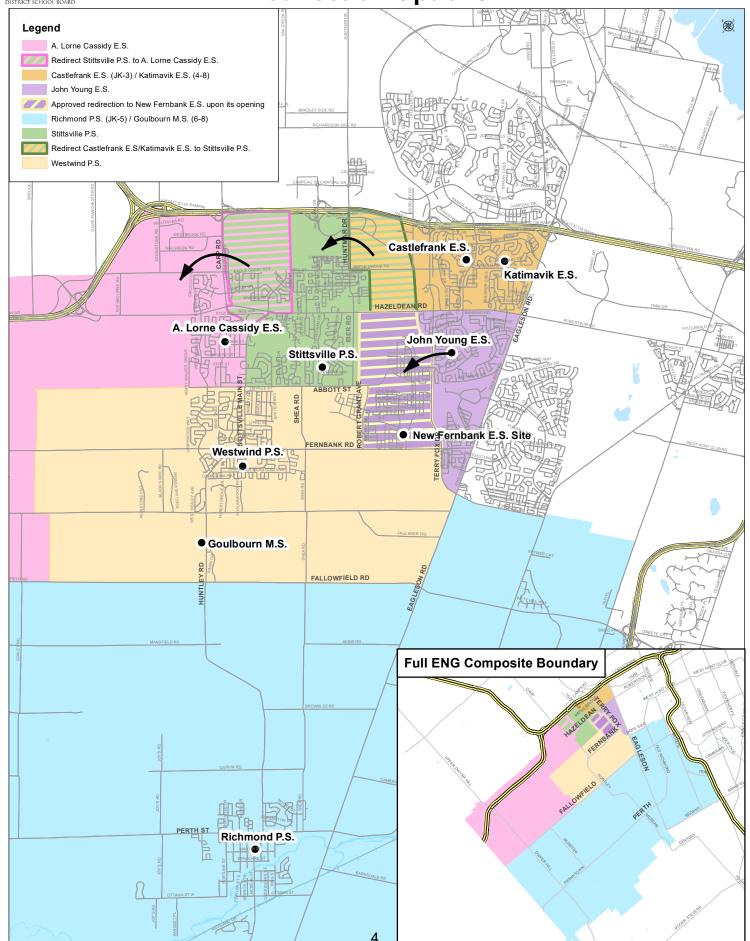

In the past, input received from the A. Lorne Cassidy ES school council expressed interest in expanding the school's attendance boundary to include more future residential development areas (for example, the Potter's Key subdivision area).

An attendance boundary revision between A. Lorne Cassidy ES and Stittsville PS could help to better balance enrolment and accommodation between the two schools in future years. This change would result in an increase in enrolment for A. Lorne Cassidy ES.

When considering where best to draw a new boundary division between these two schools, we should have regard for the potential number of future residential units and the location of the two designated future elementary school north of Hazeldean Road (Kanata West ES 1 and Kanata West ES 2). If possible, we should attempt to minimize the number of transitions for students who may be impacted by the opening of new schools.

Input Received From Public After Working Group Meeting #2

- An East-West Attendance Boundary for New Stittsville SS
- Review Designated Schools for Fallowfield Village

An East-West Attendance Boundary for New Stittsville SS

Input was received asking if an East-West attendance boundary division could be considered for the New Stittsville Secondary School (SS). The suggestion was to use Stittsville Main Street as the attendance boundary division between South Carleton High School (HS) and New Stittsville SS.

Staff had previously reviewed an East-West attendance boundary option for the new school. Although a boundary such as this would assist with reducing enrolment at the new school in the first few years, it was felt that directing the entire Village of Stittsville to the new grades 7 to 12 secondary school made more sense in the longer term and would be more inline with the expectations of the community.

Capital funding was provided by the Ministry of Education for a grade 7 to 12 secondary school to serve students residing in Stittsville.

If an East-West attendance boundary option is to be considered, the location of the future Kanata West secondary school would need to be kept in mind during the examination, to ensure logical geographic attendance boundaries and feeding patterns for area schools into the future.

Factors to Consider:

Pros:

- Set a long-term sustainable attendance boundary for New Stittsville SS immediately, rather than right sizing it in the future when a second area secondary school is opened.
- It would take longer for accommodation pressures to build at new Stittsville SS.
- A portion of Stittsville would not be redirected twice once from South Carleton HS to New Stittsville SS and then from New Stittsville SS to a second new secondary school (Kanata West SS) upon its opening.
- More students would remain at A. Lorne Cassidy ES, Goulbourn MS and South Carleton HS until more new schools could be built in the future. Goulbourn MS and South Carleton HS would be better able to maintain robust programs, student placement flexibility, extra curricular activity opportunities, etc.

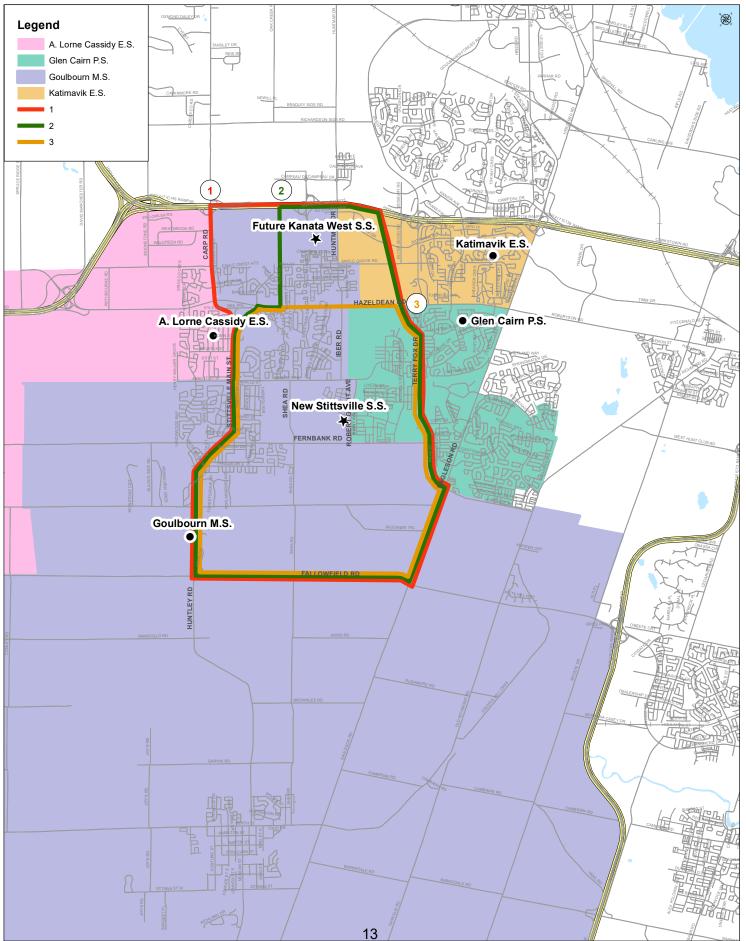

Cons:

 Funding was provided for a secondary school to serve students residing in Stittsville – under this option <u>not</u> all Stittsville area students would be accommodated at the new school.

- Students in longer established Stittsville neighbourhoods (west of Stittsville Main Street) would not attend the new school.
- Would it make more sense to exclude newer neighbourhoods such as those north of Hazeldean Road and a portion of Fernbank (north of the Trans Canada Trail and east of Iber) from the new Stittsville SS attendance boundary and have them attend the new Kanata West SS upon its opening?
- Under an East-West attendance boundary option it would introduce a split feeding pattern for Westwind PS and possibly Stittsville PS (and/or new Fernbank ES) grade 6 students moving to grade 7 (see map on page 17). Some students would feed to the New Stittsville SS while others would continue to feed to Goulbourn MS/South Carleton. Creating a split feeding pattern goes against the premise of working towards creating a family of schools for the Stittsville area.
- Extending the time for accommodation pressure to build at the new school would most likely delay the ability to establish a strong business case and secure capital funding required for an addition at the new school and/or a second secondary school in Stittsville.
- In the past, the Ministry has funded a new Ottawa-Carleton District School Board (OCDSB) secondary school approximately every ten years. It could therefore be at least 10 years before another area secondary school would open allowing all Stittsville area students to be accommodated in Stittsville.
 - When securing capital funding for a second Stittsville area secondary school, the need would most likely be competing against other OCDSB secondary accommodation needs – such as new secondary schools in Riverside South, Half Moon Bay and/or Kanata North.

Review Designated Schools for Fallowfield Village

Input was received asking if as part of this study the OCDSB would be willing to review the designated schools for Fallowfield Village (located within the former City of Nepean) area students. On 31 October 2019 there were 25 kindergarten to grade 12 OCDSB students residing within Fallowfield Village (see chart on page 24).

Currently students residing within Fallowfield Village are designated to attend the following schools:

- Richmond PS for K to 5 ENG, 4 to 5 MFI
- Westwind PS for K to 6 EFI
- Goulbourn MS for 6 to 8 ENG & MFI, 7 to 8 EFI
- South Carleton HS for 9 to 12

Fallowfield Village is geographically closer to some schools in Kanata South, South Nepean and Stittsville (see distance chart on page 25).

Should consideration be given at this time to revising the designated schools for the Fallowfield Village area?

Kanata South Schools – limited new residential growth and relatively stable enrolment at K to 6 schools, the opening of the new Stittsville SS will alleviate some accommodation pressure at Glen Cairn PS and AY Jackson SS.

School	Grade and Program	Сар	Port	Enrol	Util
Bridlewood CES	K to 6 ENG & EFI, 4 to 6 MFI	459	0	406	88%
Roch Carrier ES	K to 6 ENG & EFI, G.ENG	430	6	460	107%
W.O. Mitchell ES	K to 8 ENG & EFI	516	6	580	112%
Glen Cairn PS	7 to 8 ENG, EFI, MFI	352	0	312	89%
A.Y. Jackson SS	9 to 12	759	12	897	118%

Stittsville Schools – Stittsville is the fastest growing residential development area in Ottawa. There are accommodation pressures or expected future accommodation pressures at most area schools. An interim boundary revision between John Young ES and Westwind PS is being implemented for September 2020. It will alleviate some of the accommodation pressure at John Young ES until a new elementary school can be opened in Fernbank (top capital priority of the OCDSB – funding request has been submitted, waiting for response from the Ministry). This change will result in accommodation pressures at Westwind PS for at least one to two years.

School	Grade and Program	Сар	Port	Enrol	Util
A Lorne Cassidy ES	K to 8 ENG, EFI, 4 to 8 MFI	600	4	589	98%
New Fernbank ES	K to 6 ENG & EFI	na	na	na	na
Stittsville PS	K to 6 ENG & EFI	626	3	655	105%
Westwind PS	K to 6 ENG & EFI	628	0	521	83%
New Stittsville SS	7 to 8 ENG, EFI & MFI, 9 to 12	na	na	na	na

South Nepean Schools – Accommodation pressures exist or are expected at area schools. There is continuing significant new residential development expected into the foreseeable future. An intermediate/secondary attendance boundary revision is being implemented for September 2020 to better balance enrolment between Cedarview MS, John McCrae SS and Longfields-Davidson Heights SS.

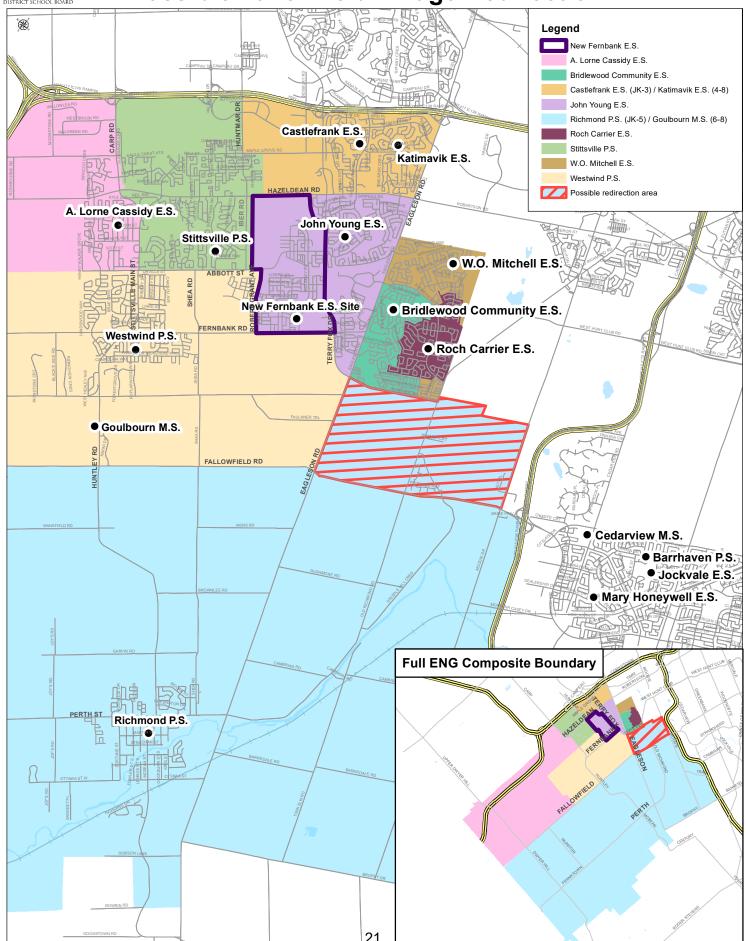

School	Grade and Program	Сар	Port	Enrol	Util
Barrhaven PS	K to 6 ENG, EFI, 4 to 8 MFI	409	7	512	125%
Jockvale ES	K to 6 ENG & EFI	479	0	360	75%
Mary Honeywell PS	K to 6 ENG & EFI	580	7	617	106%
Cedarview MS	7 to 8 ENG, EFI, & MFI	711	7	773	109%
John McCrae SS	9 to 12	996	15	1391	140%

Notes: Enrolment in charts is as of 31 October 2019

Cap = Capacity, Port = Portables, Enrol = 31 October 2019 Enrolment, Util = Utilization which is calculated as Enrolment (Head Count Total)/Capacity

Supplemental Information

- Working Option A
 - o Summary & 9-12 Map
- Working Option B
 - o Summary & 9-12 Map
- 31 October 2019 Enrolment
- Summary of Residential Permits and Enrolment by Study Planning Areas
- Study Planning Areas Maps
- Revised Study Timeline

Working Option A

New Stittsville SS is Grade 7 to 8 ENG/EFI/MFI and Grade 9 to 12 ENG/IMM

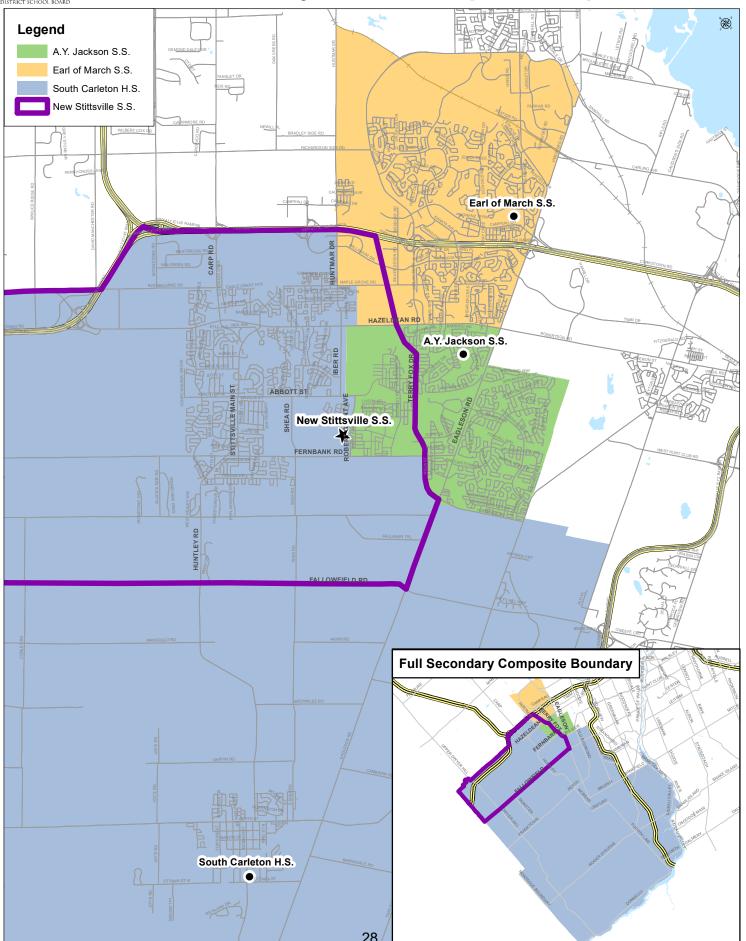

with an attendance boundary that includes all Planning Areas (1-13)* west of the Carp River/Terry Fox Drive

- A. Lorne Cassidy ES becomes a K to 6 ENG/EFI/MFI school.
 - o Grade 7 and 8 program is relocated to New Stittsville SS.
 - Students residing north of Fallowfield Road would feed to New Stittsville SS for 7 to 12.
 - Students residing south of Fallowfield Road would feed to Goulbourn MS for 7
 & 8, and continue to feed to South Carleton HS for 9 to 12.
- New Fernbank ES and Stittsville PS remain K to 6 ENG/EFI schools and students would feed to New Stittsville SS for 7 to 12.
- Westwind PS remains K to 6 ENG/EFI school.
 - Students residing north of Fallowfield Road would feed to New Stittsville SS for 7 to 12.
 - Students residing south of Fallowfield Road would continue to feed to Goulbourn MS for 7 & 8, and South Carleton HS for 9 to 12.

^{*} Planning Areas were included in Working Group Meeting #1 information package, dated November 27th, 2019.

Working Option A: New Stittsville S.S. Study Secondary School Composite Map

Working Option B

New Stittsville SS is Grade 7 to 8 ENG/EFI/MFI and Grade 9 to 12 ENG/IMM

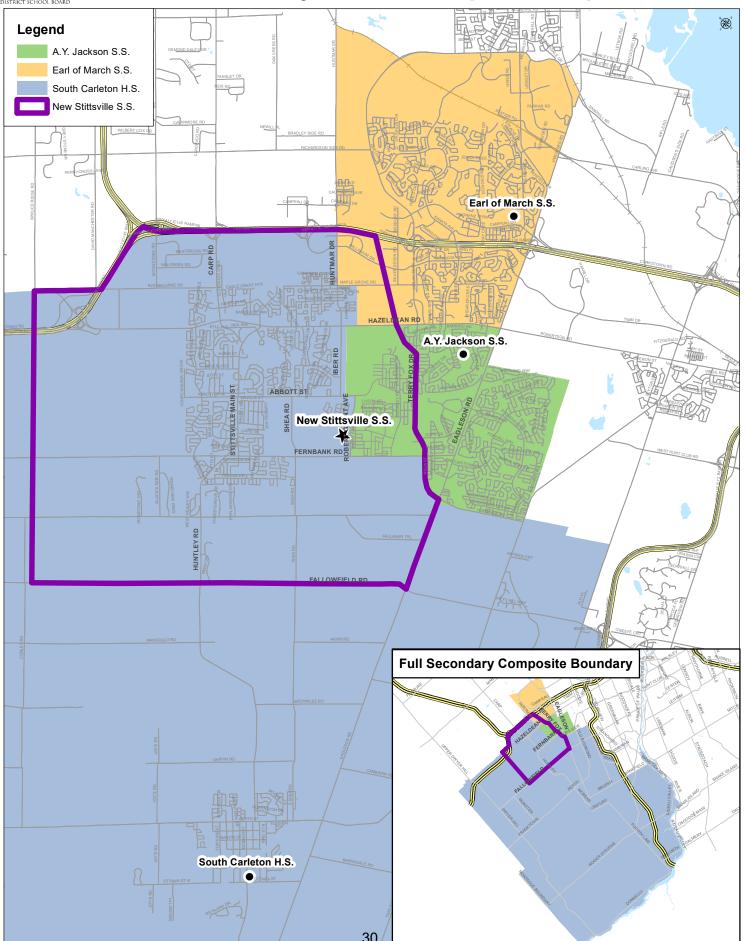

with an attendance boundary that includes all Planning Areas* west of the Carp River/Terry Fox Drive, except for only a portion of Area 12

- Students residing within the western portion of the current A. Lorne Cassidy ES K to 8 ENG boundary (west of Spruce Ridge Road) would attend A. Lorne Cassidy ES for K to 6 ENG/EFI/MFI and then feed to Goulbourn MS for 7 & 8 and then continue to feed to South Carleton HS for 9 to 12.
- Students residing within the eastern portion of the current A. Lorne Cassidy ES K
 to 8 ENG boundary (east of Spruce Ridge Road) and north of Fallowfield Road
 would attend A. Lorne Cassidy ES for K to 6 ENG/EFI/MFI and feed to New
 Stittsville SS for 7 to 12.

^{*} Planning Areas were included in Working Group Meeting #1 information package, dated November 27th, 2019.
